Dylan Hughes

CREATIVE TECHNOLOGIST AND DEVELOPER

Richmond, VA | dyl.harrell@gmail.com | dylanhughes.dev | github.com/d1elon | linkedin.com/in/dylan-hughes-va

Creative technologist and developer who designs and builds products that work, on screen and off: websites for local businesses, game software for pinball machines, and 3D-printed parts. Takes each one from first sketch to final product, combining development with digital media, hardware integration and fabrication.

EXPERIENCE

Freelance Technical Consultant and Developer
2025–Present

Self-employed | Richmond, VA

- Design, build and launch small-business websites, with five projects delivered to local clients.
- Create service-focused content, configure local SEO and Google Business Profiles, and provide ongoing website maintenance under retainer.

Digital Content Specialist and Personal Assistant
Jul 2023–Present

Alex Glaser / The Glaser Group | Richmond, VA

- Develop original game software in C# and Unity and customize interactive experiences across Multimorphic P3, Stern Spike 2 and Stern SAM platforms.
- Produce and integrate game interfaces, animation, audio and lighting; organize asset libraries and replacement workflows for custom game projects.
- Created a 3D-printed product line spanning CAD, 3D scanning, print tuning, packaging and installation documentation.
- Improve workflows for a multi-business owner, automate recurring work and introduce AI tools for daily productivity; coordinate clients, scheduling, travel and purchasing.

Marketing Coordinator and Lead Server
Dec 2021–Jul 2023

Origin Beer Lab and Center of the Universe Brewing | Ashland, VA

- Produced social media, photo and video content; promoted events and led front-of-house shifts.

Operations Assistant
Jun 2018–Jan 2021

T&B Equipment / InProduction | Ashland, VA

- Supported inventory and event installations; provided desktop and hardware support to staff.
